

TEST DATA RESULTS REPORT

Seattle Pharmaceutical

Test Type: PharmaScreen

Compound Name: Cl3H11N2O4Mg

Molecular Weight: 396.4031 moles/gram

Amount Tested: 2,593 mg

pH Level: 7

Level of Activity: 3/10

Side Effects: None Observed

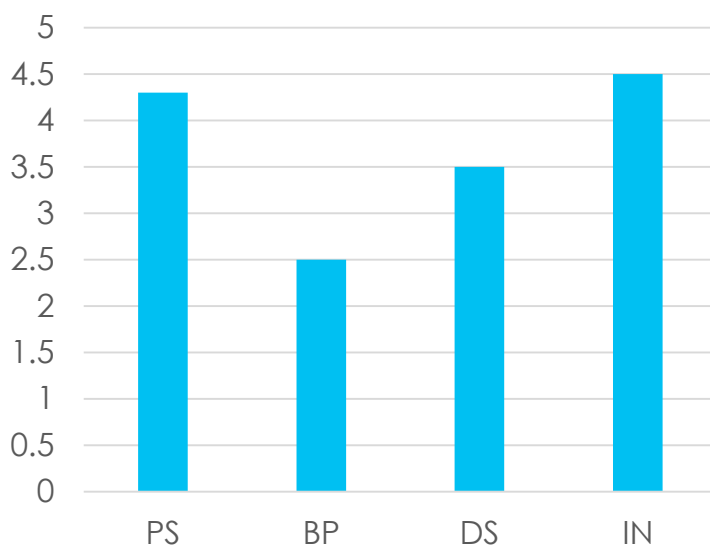

Technician Notes:

The compound does not appear to produce any side effects. The chemical reactions during the test were minimal. There are a few inconsistencies with the data and more tests are recommended before approval.

Selected Report Fields:

- Test Type
- Compound Name
- Molecular Weight
- Amount Tested
- pH Level
- Level of Activity
- Side Effects
- Historical Compound Data
- Technician Notes
